Integrator

*Integrator Modular Hunting Vest with a revolutionary
“One Sec Ready” quick release rifle holster*

The torso holder is a platform for supporting packing and carrying equipment and a system for carrying the rifle hands-free, including a quick release that allows the rifle to be placed in an active position in less than 1 second.

Concept:

- Featuring a revolutionary “One Sec Ready” quick release rifle holster
- Ambidextrous, for both right-handed and left-handed hunters
- Molle
- Buckles
- Elastic cord
- Feels extremely lightweight: thanks to ergonomic design

Integrator

Modular Hunting Vest

1 Quick-access rifle positioning system. Keeps the rifle securely in place, yet allows fast, fluid movement when needed.

2 Adjustable chest section. Padded chest section that adjusts to your body for a secure fit and balanced weight distribution.

3 Breathable back support mesh. Mesh panel promotes ventilation and comfort during extended use.

4 Multifunctional rear section. The rear section of the Integrator vest allows secure attachment of various accessories such as the backpack or game bird basket. This stable and versatile element enhances the overall balance and structure of the system, even during dynamic movement.

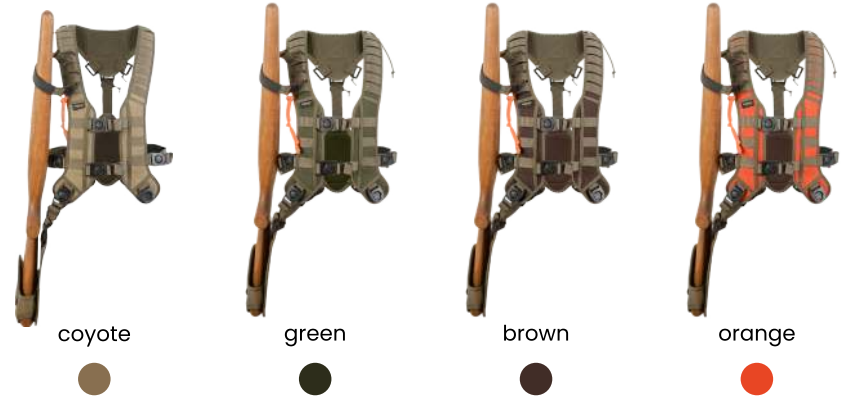

5 Quick-attachment point for modular accessories. This area of the system serves as a quick-attachment point for various modular accessories such as a rifle holster, ammunition pouch or utility bags. It allows fast, secure, and tool-free setup in the field.

6 Adjustable waist strap. Allows you to tighten or loosen the waist section of the vest for a custom, secure fit.

7 Height adjustment strap. Used to adjust the rifle's vertical position for maximum comfort and balance based on the wearer's height.

8 Rifle holster (left/right compatible). The reinforced rifle holster holds the stock securely and can be mounted on either side to suit left- or right-handed users.

- Premium quality :
- Cordura® (Germany, CF Weber)
 - YKK® components (Japan)
 - Weighs: 750 g- 800 g

Size Guide Table

Size	Chest (inches)	Chest (cm)
S	34"-36"	85-95 cm
M	38"-40"	95-105 cm
L	42"-44"	105-115 cm
XL	46"-48"	115-125 cm
XXL	50"-52"	125-135 cm

Ammunition Pouch

Compatible with Integrator Modular Hunting Vest

A unique carrier and storage solution allowing for smooth, fast and intuitive access to ammunition with a simple hand movement.

*The **anti-gravity closure system** prevents accidental ejection or loss of rounds, ensuring your ammunition stays securely in place.*

Ammunition Pouch

Compatible with Integrator Modular Hunting Vest

1 Dual quick-attachment points for the Integrator.
The ammunition pouch connects to the Integrator vest using a dual-point quick-attachment system, ensuring fast, stable and bounce-free connection during motion.
The pouch can be mounted on either the right or left side of the vest to suit user preference.

2 Modular attachment point.
The rear mounting system enables fast and secure connection of the ammunition pouch to the Integrator vest or other compatible gear.

3 Internal elastic holder – anti-gravity system.
The internal elastic band prevents accidental ejection or loss of ammunition, keeping your rounds securely in place at all times.

4 Adjustable mounting straps.
Durable and adjustable straps allow you to customize the pouch's position and ensure secure attachment to the Integrator vest. They maintain a stable fit even during dynamic movement.

Made military-grade Cordura® (Germany) with YKK® (Japan) components
Compact and lightweight: only 250 g

Hunting Tripod Holder

Compatible with Integrator Modular Hunting Vest

Operates based on the principle of a gravitational pendulum.

Mounting:

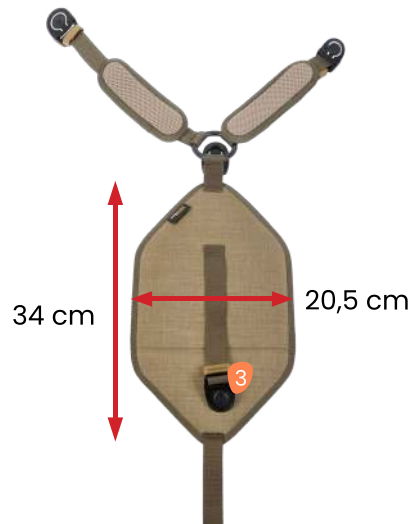

- *Hanging with two buckles*
- *Ambidextrous, for both right-handed and left-handed hunters*

Hunting Tripod Holder

Compatible with Integrator Modular Hunting Vest

Attachment points for the Integrator vest. Dual mounting straps allow a fast and secure connection of the tripod holder to either side of the Integrator vest — adaptable for both left- and right-handed users.

Lower wrap holder for tripod. Place the tripod into the fabric sleeve, roll it up, and fasten it using a buckle that is both quick and easy to secure. This setup provides stable retention and prevents shifting during movement or transport.

Gravity-based quick-release attachment. Operates on a gravity-driven principle, allowing the tripod to swing freely during movement. The quick-release buckle ensures fast and effortless mounting or removal.

Made military-grade Cordura® (Germany)
Compact and lightweight: only 140 g

Backpack

Compatible with Integrator Modular Hunting Vest

The entire backpack serves as an integrated back support when worn on the back.

When worn on the side, it is suitable for first aid and various supplies, as well as a larger caliber pistol/revolver.

Backpack

Compatible with Integrator Modular Hunting Vest

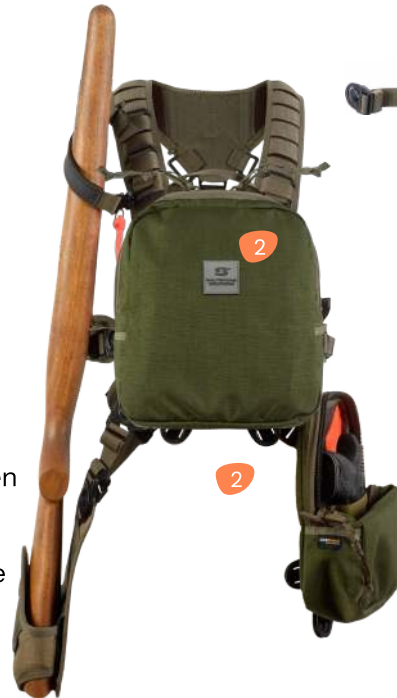

1 Multi-position attachment buckles. The backpack's buckles allow secure mounting to the right, left, back, or front of the Integrator vest – so your gear is always where you need it most.

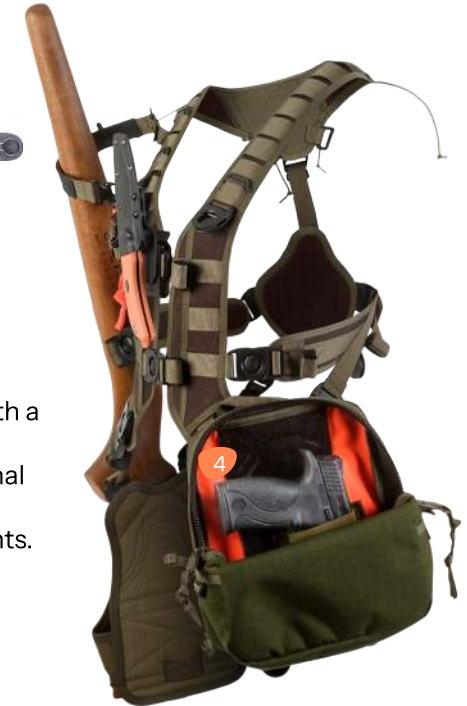

3 Backpack with attachment kit. Includes the backpack and all necessary mounting straps to attach it securely to the Integrator vest. Thanks to its modular design, the pack can be positioned on the back, side, or front – offering maximum flexibility and balance in the field.

2 Simultaneous multi-pack attachment. The Integrator system allows you to mount multiple packs at once – on the back, sides, or front – depending on your mission or gear setup. You can even attach up to 4-5 pouches or backpacks simultaneously, ensuring maximum capacity and perfect organization in the field.

4 Rubber holster for pistol. A removable pistol holster designed to fit inside the backpack. Secures larger caliber handguns or revolvers with a hook-loop and elastic strap system. Sold separately as an optional accessory for users who require discreet firearm carry during hunts.

Communication Device Holster

*Compatible with Integrator
Modular Hunting Vest*

The device position in the holster and its release are secured with an elastic cord.

Mounting:

- Molle

Communication Device Holster

Compatible with Integrator Modular Hunting Vest

Made military-grade Cordura® (Germany)
components
Compact and lightweight: only 35 g

- 1 Communication Device Holster. Keeps your radio or GPS unit safe, secure, and easily accessible. Mounted via MOLLE system and secured with an elastic cord for quick release and reliable retention – even during intense activity.

Game Pouch

Compatible with Integrator Modular Hunting Vest

The perfect carrying solution for small game. Ideal for bird or rabbit hunting, this game pouch offers optimal weight distribution to ease the burden of transporting harvested game. It connects quickly and securely to the Integrator Modular Hunting Vest, ensuring stability during movement. Waterproof and easy to clean, it's designed for rugged use in any environment.

Game Pouch

Compatible with Integrator Modular Hunting Vest

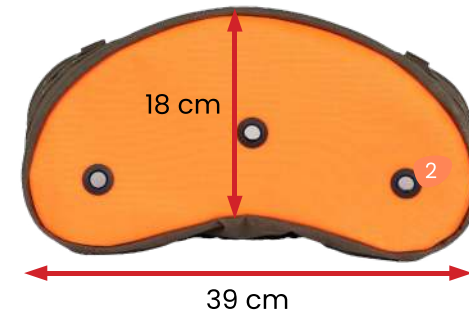

1 Attachment points for the Integrator modular hunting vest.

2 Equipped with integrated drainage holes, the pouch allows water to flow out easily during cleaning and provides essential ventilation to keep contents dry and odor-free.

3 The padded back panel with breathable mesh foam fits comfortably against the hunter's back, making the transport of game easier and more stable during movement.

GARMIN GPS Holder

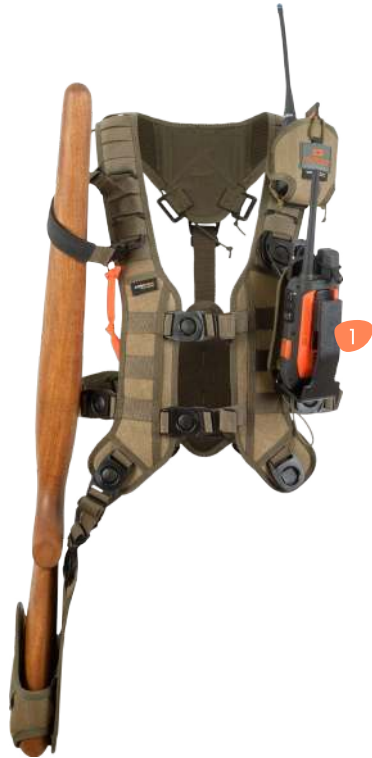

Compatible with Integrator Modular Hunting Vest

Does not interfere with the compass. Easy and quick to fold in and out. You get both arms free while you can look at your GPS and be ready to shoot. With the foldable GPS holder, you always have an eye on where you have your dog and can quickly check your own or your dog's position.

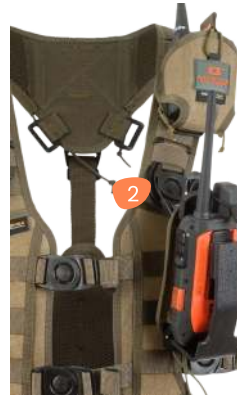

GARMIN GPS Holder

Compatible with Integrator Modular Hunting Vest

1 Secure Shoulder Mount.
Firmly attaches to the shoulder strap of the Integrator vest. The position ensures easy visibility and instant access without interfering with rifle handling.

2 Adjustable Side Clamp.
Flexible clamping mechanism that adapts to different GPS or radio sizes. The device stays stable even during high-movement activities.

3 Fold-Out Design with Quick Access.
The fold-out holder allows you to swing the device into view with one motion – perfect for checking dog position or GPS data while keeping both hands free.

Compatible Garmin Devices:

- Alpha 50 / 100 / 200 / 300
- Astro 320 / 50
- Dakota series
- Approach series
- eTrex series
- GPSMAP 62 / 64 / 66 / 86
- inReach series
- Oregon 200 / 300 / 400 / 500 / 600 / 700
- Rino 610 / 650 / 700 / 750 / 755

Made military-grade Cordura® (Germany) components.
Compact and lightweight: only 170 g
